SCHOOL REPORT.

The school board of New Durham respectfully submit the following report :

In review of the work done the past financial year, we can confidently say that progress has been made in each school, though not in the same degree. In every instance our teachers, who have had charge of studious scholars who have attended regularly and have been supported by home influence, which is helpful to both teacher and scholar, have acquitted themselves honorably.

The indifference of parents in regard to the attendance of their children is a greater hindrance to the success of our schools than the inefficiency of teachers. This is especially true if the school board has exercised due caution in the selection of teachers. In this department of our work great care is due our children, for the school is their one opportunity for life.

Great care is due our tax-payers, for they are entitled to the best schools their taxes will provide. In short, great care is due to every department of our educational work. We need to be able to compare correctly the one who teaches school with the one who simply keeps school and draws pay for his or her services.

We tolerate no insubordination. It will utterly destroy the efficiency of any school. More and more do we see the need of having correct views of school work and of discarding every selfish idea in regard to the selection of teachers, never giving the preference to relatives or friends; but aiming only to serve our town's people in the best possible manner. The management of schools is emphatically a business transaction of no secondary importance. Upon the education of our children depends largely the future character of our town's people. The legitimate influence

of knowledge is to lead away from the lower associations of life. In proportion as the human race has advanced in education it has advanced in civilization. Let us do our best toward keeping pace with the best means and methods now in use that the generation that is to follow may be wiser and better because we have lived.

The treasurer's report will indicate to you the use that has been made of the funds that were placed at our disposal, except such as have been drawn directly from the town treasury for the purchase of supplies and the globes which in our best judgment was a much needed outlay. And in conclusion we have only to express thanks to those who have through home influence aided us in successfully caring for our school interests.

LESLIE W. RICKER,	} School Board.

JOSEPH T. AYERS, Treasurer.

REPORT OF THE LIBRARY TRUSTEES OF THE TOWN OF NEW DURHAM.

The whole number of books reported in February, 1896, was 124; during the past year only one book has been added, the title of which is "Second New Hampshire Regiment." An examination of the books and records as kept by the librarian gives evidence that the duty of the librarian has been faithfully performed. The amount of money raised as required by law for the support of the library was \$31.20, of this amount \$6.25 being due the librarian to February 15, 1895, and \$13 for services from February 15, 1896, to February 15, 1897, leaving a balance of \$11.95.

LESLIE W. RICKER,	}	Library Trustees.
HORATIO G. CHAMBERLIN,		
PENUEL C. HAM,
